Education

JSS Academy of Technical Education, Noida

Sep. 2023 – May 2027

B.Tech in Computer Science Engineering — CGPA (Till 6th Sem): 7.7/10

Noida, Uttar Pradesh

Relevant Coursework

- Data Structures and Algorithms
- Compiler Design
- Design and Analysis of Algorithms
- Database Management Systems
- Machine Learning
- Software Engineering
- Computer Organization and Architecture
- Software Engineering and Project Management
- Data Compression

Projects

AI Resume Analyzer | *React.js, Node.js, Express.js, OpenAI API*

2026

- Developed an AI-powered resume analysis platform using React.js and Node.js for automated resume evaluation and feedback generation.
- Implemented resume parsing and skill extraction features to efficiently analyze uploaded resumes.
- Integrated OpenAI APIs to provide ATS-style suggestions and personalized resume improvement recommendations.
- Designed a responsive and user-friendly interface for seamless resume upload and AI-generated analysis reports.

AI Code Explainer | *React.js, Express.js, OpenAI API*

2026

- Built an AI-powered code explanation tool capable of analyzing and explaining source code snippets in real time.
- Integrated OpenAI APIs to generate beginner-friendly explanations and debugging suggestions.
- Developed frontend features using React.js for code input and dynamic AI-generated responses.
- Designed backend services using Express.js to manage API communication and response handling efficiently.

Task Management Web App | *React.js, Node.js, Express.js, MongoDB*

2026

- Developed a full-stack task management application to create, update, delete, and organize daily tasks efficiently.
- Implemented user authentication and protected routes using JWT authentication.
- Built responsive frontend components using React.js for task tracking and real-time UI updates.
- Designed RESTful APIs with Express.js and MongoDB for secure data storage and task management operations.

Technical Skills

Languages: JavaScript, C++, C, HTML, CSS

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code, Postman

Concepts: REST APIs, Authentication, Responsive Web Design, CRUD Operations
